

# Frontend Developer

**SAM GMARVIS NJONG**

<https://github.com/gmarvis>  
sgmarvis@gmail.com  
Yaounde Cameroon

Frontend-oriented Full-Stack Developer with a strong focus on creating user-centric solutions and enhancing UI/UX. Experienced in optimizing user interfaces using modern technologies like React, Next.js, and TypeScript. Skilled in integrating and maintaining third-party APIs, ensuring high reliability and real-time data synchronization. Proven track record of improving product quality and user experience through high-quality, reusable code and innovative solutions.

## PROFESSIONAL EXPERIENCE

**[Ethos-cm](#)**

**Match-2024 - July-2024**

Frontend Developer

Collaborated and Implemented designs into a working software application for a customer service and admin platform, resulting in a reduction in customer service response times with 96.0% uptime.

**[Homygig](#)**

**Dec 2023 - Aug 2024**

Fullstack developer

As a Project Manager and Full-Stack Developer at Homygig, I led the development of a home service platform, boosting user engagement by 30%. I optimized the user interface with Nextjs and TypeScript, reducing page load times by 50% and increasing booking conversions by 10%. Additionally, I improved API reliability and real-time interactions, enhancing overall platform performance and user retention.

## PROJECTS

**[Homygig](#)**

- A full-stack platform for listing and booking home services, built with NestJS, TypeScript, Tailwind CSS, MySQL, Socket.io, and JWT Authentication.
- Developed a user-friendly interface and integrated third-party APIs to enhance user experience and service reliability.
